All-in-one wireless colour inkjet printer

The stylish MFC-J4440DW is a business-quality multifunction device offering print, copy, scan and fax functionality. Print from your workstation, anywhere in the house or from your mobile device via wireless connectivity or NFC. The list of features is endless with the MFC-J4440DW – add to this its high yield inbox ink cartridges, reducing your print costs, it's the perfect home office business partner.

MFC-J4440DW

Key Features:

- **Wireless connectivity**
- **Mobile compatible – download app: 'Brother Mobile Connect'**
- **Print via near-field-communications (NFC)**
- **20-sheet automatic document feeder**
- **Automatic 2-sided printing**
- **Print speeds of up to 20 pages per minute (ISO/IEC 24734)**
- **6.8cm colour LCD touchscreen**
- **Inbox inks – BK: 3000 pages, CMY: 1500 pages⁸**
- **Inkvestment tank technology**

Your home office business partner

There are many ways this robust, yet stylish machine will make your home-working life easier. Firstly, with inbox ink cartridges allowing you to print up to 3000 pages⁸, you don't need to replenish ink as often – therefore saving time and money. Additionally, with several connectivity options you don't need to be at your desk to send a print job, or even check ink levels. With the 20-sheet automatic document feeder, you can leave your multi-page document to scan while you focus on other tasks. On top of this, with fast print speeds and an easy to navigate colour LCD touchscreen, you're sure to work faster and better.

Work connected, always

You don't need to be sat at your desk, or even near the printer to use the MFC-J4440DW. With the range of connectivity options available, you can print anywhere in your house or office – and even from your mobile phone through the Wi-Fi, or NFC. By downloading the Brother Mobile Connect app, you can access an array of features – from sending print jobs, to checking your ink levels.

Inkvestment Tank Technology

We've reengineered our ink cartridges to hold more ink and created an internal ink storage tank that delivers more pages of uninterrupted printing without sacrificing the compact, desktop size. This internal ink tank means you can keep printing high quality output for longer - without the need for messy and unreliable refill bottles. Also, thanks to the page gauge feature you can check remaining ink levels on your LCD display to help avoid interrupted printing.
