

ADVANCED QUILTING & SEWING

For All Your Quilting and Sewing Needs

- **Compact MuVit Digital Dual Feed**

The Compact MuVit Digital Dual Feed gives you better visibility and better functioning with thicker materials. Stitches forward and backward for unprecedented versatility and comes with various stitches chosen specifically to use with the Dual Feed.

- **Computer Compatibility**

With a full USB port, the BQ3100 easily accepts USB media for adding or saving additional stitches. Alternatively, use the port to connect a USB mouse (not included) to use with the machine's screen. Connect the BQ3100 to your computer for easy software updates and upgrades.

- **Sew Straight Stitches**

When it comes time to quilt, piece, or sew, align rows of decorative stitches in smooth straight lines with the Sew Straight Laser Vision Guide.

- **V-Sonic Pen for Sewing**

Touch the fabric with the sensor pen for needle placement, stitch-width setting, and positioning the endpoint of a line of stitches. Simply touch and sew.

- **Pivot Function**

The presser foot automatically lifts while the needle remains in the fabric for fast and easy cornering and fabric manipulation.

- **Automatic Height Adjuster (AHA)**

The AHA feature helps ensure consistent stitch length on all fabric thicknesses by keeping the presser foot pressure constant – regardless of fabric thickness – producing more consistent stitch quality across uneven surfaces.

- **Built-in Stitches, Buttonhole Styles, and Fonts**

759 utility and decorative stitches (729 built-in, 30 on CD), 14 one-step auto-size buttonhole styles, and 5 fonts for sewing.

- **My Custom Stitch**

Want to create your own stitches and add some personalisation? With the My Custom Stitch feature, you can create a stitch, save it, and then stitch it.

- **LED Lighting and Spacious Work Area**

With the enhanced LED lighting on the generous 11.25" (285mm) workspace, you can brighten your fabric with a 10" (254mm) glow around the needle.

- **Colour LCD Touchscreen Display**

The large 7" display controls the machine via intuitive on-screen icons and allows viewing of on-screen tutorials.

- **Sideways and Directional Sewing**

Perfect for trendy decorative mending, the machine sews straight and zigzag stitches not only forward and backward but sideways. In addition to sideways sewing, this machine has the capability to stitch diagonally when using a straight stitch.

Basic Features

LCD Display Size Inches	Diagonal 7" (178mm)
Display (Number of Colours)	Up to 260,000
